Skills

- **Programming Languages:** C++ , JavaScript, Python, SQL
- **Frontend:** Html/CSS, React, Ajax, JavaScript
- **Backend:** Node.js, Express
- **Databases:** MongoDB, Oracle SQL
- **AI:** LLM Fine-tuning, RAG(Retrieval-Augmented Generation), Transformers
- **Tools:** GIT, VS Code

Education

Bachelor of Computer Science	**FAST-NUCES**	*Islamabad, Pakistan*	**2022-2026**
Intermediate (I.C.S)	**KIPS College**	*Lahore, Pakistan*	**2020 - 2022**

Projects

Smart Scrum Assistant (FYP):

- **Architected** an AI-driven project management platform using the **MERN Stack** to automate agile workflows.
- **Fine-tuned** a **Distilled GPT model** to parse unstructured client requirements into actionable user stories and module breakdowns.
- **Engineered** an intelligent resource allocation algorithm that suggests tasks based on real-time developer workload and availability.
- **Tech:** MERN Stack, NLP GPT-Based Distilled NLP Model (Fine-Tuned)

Med Assist RAG (Healthcare AI):

- **Developed** an end-to-end **Retrieval-Augmented Generation (RAG)** pipeline to provide context-aware medical treatment suggestions.
- **Implemented** advanced data indexing to process both structured and unstructured clinical datasets for high-accuracy retrieval.
- **Tech:** Python, Hugging Face Transformers, RAG, Vector Databases.

Digital Asset Recovery Platform:

- **Designed** a secure web solution for digital wallet inheritance, preventing the permanent loss of crypto assets.
- **Developed** a beneficiary assignment system using **Node.js** and **Express**, with a scalable architecture for future blockchain integration.
- **Tech:** Node.js, MongoDB, JavaScript, HTML/CSS**.**

Medcom (Medical Facility Provider):

- **Built** a full-stack E-commerce platform for medical suppliers to facilitate Direct-to-Consumer (D2C) sales.
- **Integrated** secure product listing and order management modules to ensure competitive pricing and authentic delivery.
- **Tech:** JavaScript, Node.js, Express, MongoDB.

CodeGen Assistant (AI Developer Tool):

- **Built** a natural language-to-code assistant capable of translating prompts into executable **Python** and **C++** code snippets.
- **Streamlined** the rapid prototyping process by utilizing **Hugging Face Transformers** for efficient code generation
- **Tech:** Python, NLP, Hugging Face Transformers, RAG.

Certifications

- **Programming for Everybody (Started with Python):** Fundamentals to AI programming Language. Link to Certificate.
- **AI for Everyone Certificate:** Fundamentals of Deep Learning. Link to Certificate.

Others

- **Daira Marketing Team:** Collaborated with the Daira Marketing Team to execute marketing strategies for the event. **(2023)**
- **FAST Photography Society**: I contributed to the Photography Society by providing event coverage as a photographer. **(2023 - present)**
- **FAST Sports Guild Society:** Managing all DAIRA sports events and Hostel leagues. **(2022 - present)**
- **FAST DATS:** Participated in trading Competitions. **(2023 - present**
